POWERSERIES high-quality, slim-profile keypads use advanced plastics technology to achieve a clean, unobtrusive look that homeowners welcome and installers will appreciate for their easy programming and installation.

The keypads feature an input/output terminal that can be programmed to operate as a zone input, programmable output or as a low temperature sensor. The keypads also include adjustable backlit keys that address low-light situations and five programmable keys for simple one-button activation of system functions. The PK5500/ RFK5500 64-zone full-message keypad, support eight languages, global partition status and full, 32-character programmable phrases.

## Keypads

### The WT5000 2-Way Wireless Wire-Free Keypad Peace of Mind is at Hand.
