## 5 WAYS TO REWARD YOUR LOYAL CUSTOMERS

Imagine that you are a customer for a brand which you have continuously supported for a few years. How would you like to be rewarded for such loyalty? Your customers will cheer loudly for you if you're willing to offer more great things for them!

- LOYALTY CARD SCHEME**  
Offering a loyalty card to your customers is a conventional yet effective way to reward them. This also encourages them to spend their accumulated points to make another purchase from you again. So in order to gain loyal points, your customers could have possibly made more purchases from you in order to accumulate points and enjoy spending it.
- OFFER DISCOUNT OR REBATE ON PRODUCTS**  
In order to reward their supportive purchases you can offer your customers discounts on selected items. Besides, you can offer them higher discount rates than the normal rate so that they can truly enjoy the benefits as loyal customers. Helping them to save money makes them happy and thus triggers their interest to make more purchases from you in the future!
- EXCLUSIVE PRODUCTS**  
Another way to reward your customers is to offer them exclusive products which cannot be found in the market or cannot be purchased as a non-member. This is to make your loyal customers feel that they are special by becoming your loyal member.
- GIVE AWAY FREE ITEMS WITH MULTIPLE PURCHASES**  
Who doesn't love freebies? Same goes to your customers. You can increase their shopping desire by offering them free items with multiple purchases or a minimum purchase amount. As for the free gift, you may reward them with the items which are only available in your store.
- CELEBRATE THEIR SPECIAL DAYS**  
Offer free gifts or higher discount rates for your customers when they make purchases on their birthday month or other special days such as mother's day, father's day, labour's day, etc. Your little act can make them feel exceptional on their special month. In addition, your credibility and reputation can be enhanced through your generous act. Their return rate is guaranteed!
